my scribbles

1,500 durable,
flexible and beautiful
stitches per minute

3 nights of takeout
from my neighborhood deli

1 versatile dress
that keeps up with
my busy lifestyle

THE NEW
OVERLOCKER

made to create

BERNINA

The fast and flexible way to sew!

Outstanding speed control thanks to the BERNINA Foot Control and DC motor which allows stitch by stitch sewing and a top speed of up to 1,500 stitches per minute. Professional seams and hems of highest stitch quality are produced in no time. The automatic needle stop up ensures the needles and loopers are always in the correct position.

Features and Functions of the BERNINA L 460

Ultimate Comfort

The well-lit grand workspace of this overlocker eases sewing as well as threading of loopers and needles. Thanks to the Free-Hand System (FHS) that raises and lowers the presser foot both hands are free for sewing and placing the fabric. The slide-on table expands the work space to support larger sewing projects.

Ease of Use

With the patented Micro Thread Control (mtc) the over-edge thread amount can be adjusted exactly and easily. Any settings are adjustable while sewing, including the cutting width from 3 to 9 mm and the stitch length from 0.8 to 4 mm. Effortlessly change the differential feed to ensure wave-free seams in knits and no puckering in fine fabrics. A manual needle threader allows for easy and ergonomic threading. The color coded threading paths as well as the lower looper threader support your quick threading.

Accessories

The most commonly used accessories are located in the looper cover, neatly arranged and ready to be used. The additional accessory box holds the seam guide, spool caps and tools. A range of optional feet for your creative overlocking is available.
